

## Density Worksheet

1. What is Density?
2. While conducting the experiment, fill this chart out based on whether the object floats or sinks:

	Grape	Lego	Nickel
Water			
Corn Syrup			
Cooking Oil			

3. What happens when the liquids are combined? Why?
4. What is the order of density, which liquid is the densest and which is the least dense?
5. What did you conclude from this experiment?
